LUXURY VOYAGE / AVIATION

More than a destination. Your own way there.

ONE JOURNEY. YOUR SIGNATURE.

A morning meeting in Milano and home that evening? A family holiday or a special occasion with time to yourselves? Tell us what you want your journey to make possible. Your personal charter brief starts there.

From your first flight idea to your final address, we consider aircraft category, cabin comfort, luggage, dining and, if requested, chauffeur or concierge arrangements together. You can then decide on a specific proposal shaped around your journey.

Your plans set the direction. We consider the details.

PRIVATE CHARTER / YOUR ADVANTAGE

A schedule built around your purpose

Tell us when you need to arrive and where your day should end. Departure options, onward travel and return plans are reviewed together, subject to operating requirements.

Comfort that feels personal

Work, conversation or a quiet retreat: share your cabin, dining and luggage preferences. The specific aircraft and confirmed services define what can be arranged.

A clearer basis for your decision

An individual proposal sets out aircraft, operating carrier, agreed services and terms. Discuss your priorities before deciding on the arrangements that suit you.

A business trip, family escape or special occasion: your travel brief is the first step.

LUXURY VOYAGE / AVIATION

The right aircraft. For your horizon.

01 / PRIVATE JET CHARTER

Chartering starts with your priorities. Would you like to work quietly, travel together or unwind on a longer flight? Route, dates and cabin preferences guide the selection for one flight, a return journey or several stages.

THE AIRCRAFT COLLECTION
Categories are a guide. Aircraft, cabin, capacity, range and availability are confirmed for your specific journey.

01 / AIRCRAFT CATEGORY

Light Jet

For shorter European routes and smaller travel parties. A compact cabin and direct connections are the focus.

EUROPE COMPACT CABIN SHORT JOURNEYS

02 / AIRCRAFT CATEGORY

Midsize Jet

For longer routes and additional space on board. A balanced option when comfort, luggage and a flexible itinerary come together.

REGIONAL & INTERNATIONAL MORE CABIN SPACE BUSINESS & LEISURE

03 / AIRCRAFT CATEGORY

Long Range Jet

For intercontinental journeys and generous cabin comfort. Rest areas and configuration are reviewed for the specific aircraft.

INTERCONTINENTAL GENEROUS COMFORT LONG JOURNEYS

LUXURY VOYAGE / AVIATION

Your questions. Thoughtfully answered.

GOOD TO KNOW

How is my charter flight planned?

Departure, destination, dates, guest numbers and luggage set the brief. Cabin preferences and onward transfers are considered, with availability and specific flight details reviewed personally.

How much does a private jet charter cost?

The total depends on the route, aircraft, date, positioning and airport services, among other factors. An individual proposal is more informative than a generic hourly rate.

Can I book a specific aircraft?

A preferred model can be requested. The actual aircraft and its equipment must be checked for availability and suitability before confirmation.

Are helicopter transfers possible everywhere?

No. Weather, landing site, operator conditions and required permissions determine whether a route can be operated.

Are empty-leg flights available?

Empty legs can be requested as a separate option. They depend on the original flight schedule and may change or be cancelled. No live inventory is displayed.

Who operates the flights?

Flights are operated by the licensed air carrier identified in the individual proposal. This website does not represent an owned aircraft fleet or an air operator certificate.

LUXURY VOYAGE / AVIATION

Private jet charter: Zurich, Dubai & Milano

PERSONAL TRAVEL PLANNING

Private jet charter starts with the purpose of your journey. Would you like to connect several appointments, travel with family or spend a longer flight at ease? Begin with the route, guests and intended arrival window. Cabin preferences, luggage, catering and onward transfers can then be considered together. Luxury Voyage Aviation discusses the brief directly with you. A specific proposal identifies the suggested aircraft, operating carrier and agreed services before you decide.

What details help with personal charter planning?

Include the route, date, guests, luggage and fixed arrival commitments. Discuss cabin preferences, a chauffeur or concierge directly with Luxury Voyage Aviation. An enquiry is not a booking confirmation.

012

Who operates the flights?

Flights are operated by the licensed air carrier identified in the individual proposal. This website does not represent an owned aircraft fleet or an air operator certificate.

PERSONAL TRAVEL PLANNING

Private jet charter: aircraft choice and cost factors

The appropriate private jet category depends on more than the route. Guests, luggage, cabin layout and the intended daily schedule belong in the same brief. When comparing costs, consider the overall scope: ask about positioning, airport services, agreed catering and requested onward connections. Proposal validity, payment arrangements and terms for changes or cancellation should also be clear. A generic hourly rate cannot replace a review of the actual journey. The aircraft model, carrier and equipment are identified in the proposal.

What details help with personal charter planning?

LUXURY VOYAGE / AVIATION

A different perspective.

Illustrative aviation imagery · Illustrative imagery · no claim of an owned fleet or guaranteed availability.

From a private terminal to the Alps, or a scenic flight over an extraordinary landscape: helicopters complement your journey when the connection and experience fit.

01

Private transfers

Route, weather, landing sites and permissions are reviewed before confirmation.

02

Alpine experiences

Alpine journey ideas are shaped around departure point, timing and landing options. A connecting chauffeur journey can be included in your enquiry.

03

Bespoke scenic flights

Landscape, season and preferred duration form the brief for a private scenic flight. The actual route is coordinated with the operator.

PERSONAL TRAVEL PLANNING

Helicopter charter: transfer or scenic flight?

A helicopter transfer connects agreed locations, while a scenic flight focuses on experiencing a route. Describe the destination, guests and available time clearly. Luggage, suitable landing locations and the onward journey need to fit the plan. Weather and operational permissions can affect the itinerary. A requested private jet connection is reviewed against the actual confirmed flight. For weather-dependent plans, discuss an appropriate alternative in advance.

What details help with personal charter planning?

Include the route, date, guests, luggage and fixed arrival commitments. Discuss cabin preferences, a chauffeur or concierge directly with Luxury Voyage Aviation. An enquiry is not a booking confirmation.

Discuss your personal charter journey ↗

LUXURY VOYAGE / AVIATION

Private jet from Zurich. Personal in every detail.

City photograph: Zürich · Destination photography

Plan private jet charter from Zurich around your schedule, with a considered brief covering flight, cabin and chauffeur transfer.

01 / PRIVATE AVIATION

Starting your journey in Zurich

A meeting in Milano, a stay in the Middle East or onward travel to a private holiday destination: planning begins with your first and last address, as well as the flight itself. Include your preferred departure, destination and required arrival time in the enquiry.

02 / PRIVATE AVIATION

From hotel to private terminal

Your chauffeur transfer is coordinated with the confirmed departure point and the operating carrier’s meeting instructions. Hotel address, luggage, contact person and any stops belong in the brief. Allowances follow the actual instructions; no universal boarding time is promised.

03 / PRIVATE AVIATION

Business travel, personal comfort

A day of meetings with an evening return has different requirements from a longer family stay. Discuss workspace, rest, fellow guests and luggage early. Cabin suitability is assessed against the actual aircraft and confirmed route.

04 / PRIVATE AVIATION

Journey ideas from Zurich

Zurich–Milano and Zurich–Dubai are examples of individually requested connections, not published scheduled flights. Other European and international destinations can be included. Airports, stops and slots remain subject to individual review.

05 / PRIVATE AVIATION

A Swiss stay and the Alps

A chauffeur, private tour or separately reviewed helicopter connection can complement your stay. Alpine journeys require consideration of weather, landing arrangements and a suitable ground alternative. Each additional service is expressly agreed in the proposal.

06 / PRIVATE AVIATION

Zurich: Old Town, lake and business

Zurich combines an urban stay with time by the water. Bahnhofstrasse runs from the main station towards Lake Zurich, with Rennweg and Augustinergasse leading into the Old Town. Around Paradeplatz, Bellevue and the lake, business appointments and personal time can form an individual itinerary. Your flight plan remains the framework for the day.

07 / PRIVATE AVIATION

Private aviation at Zurich Airport

Zurich Airport has a general aviation area. The actual handling point, contact person and meeting instructions are coordinated with the operating carrier. A private flight does not remove required security or travel-document checks. Chauffeur pick-up follows the confirmed arrangements rather than a universal promised handling time.

08 / PRIVATE AVIATION

A stay at your own pace

A morning appointment, an afternoon in the Old Town or by Lake Zurich, and a personal dinner in the evening: this is an itinerary idea rather than a fixed package. Duration, interests and pauses are discussed individually. Chauffeur travel can be combined with suitable walking sections; not every address can be reached directly by vehicle.

09 / PRIVATE AVIATION

Concierge for your Zurich journey

Hotel and restaurant preferences, a private sightseeing itinerary or coordination for several guests can be included in your enquiry. Concierge planning connects these wishes with arrival and return travel. Reservations, opening times and third-party services are individually confirmed; no blanket access or availability is promised.

010 / PRIVATE AVIATION

A complete Zurich brief

Include flight dates, guest numbers, hotel or final address, luggage quantity and size, and fixed appointments. Add preferred vehicle type, child seats and mobility requirements. This supports a coordinated private jet, chauffeur and personal service while keeping flight planning at the centre.

YOUR PRIVATE TRAVEL BRIEF

Your plans deserve a personal response.

Share your route, timing and preferences. A suitable proposal is reviewed individually; an enquiry is not a booking confirmation.

PERSONAL TRAVEL PLANNING

Private jet Zurich: GAC, timing and onward travel

A private flight from Zurich needs the actual handling location and a considered time buffer in the itinerary. Zurich Airport has a General Aviation Center; required slots are coordinated through the responsible dispatcher or handling provider. A preferred date and airport name alone are not a complete travel brief. Include the hotel address, appointment time, guests and luggage. The chauffeur meeting point follows the confirmed flight and permitted access; apron access is not assumed.

LUXURY VOYAGE / AVIATION

Dubai. Your next horizon.

City photograph: Dubai · Destination photography

Private jet charter to and from Dubai, with a personally considered cabin, detailed travel brief and coordinated ground connections.

01 / PRIVATE AVIATION

Connecting Europe and the Middle East

Dubai may be your destination or one stop in a wider journey. The flight brief considers every stage together: arrival, onward travel, length of stay and return. Zurich and Milano can be included in one itinerary.

02 / PRIVATE AVIATION

Choosing long-haul comfort

On longer flights, seat count is only one consideration. Discuss whether you wish to work, dine together or relax. Cabin layout, rest areas, connectivity and catering options vary by aircraft and must be specifically confirmed.

03 / PRIVATE AVIATION

A considered arrival

The ground connection takes account of the arrival airport, pick-up address, hotel and luggage. The actual arrival point is recorded in your confirmed itinerary. Local providers and individual services are identified in the proposal once established.

04 / PRIVATE AVIATION

Families, guests and individual wishes

Children, pets, dietary preferences and extensive luggage should be included in your first enquiry. A preference is not a service guarantee: the operating carrier reviews what can be agreed for your flight.

05 / PRIVATE AVIATION

Your Dubai enquiry

Share dates, departure, guest numbers and intended length of stay. If your schedule is flexible, include a time window. The proposal is designed to make suitable options and their terms easier to compare.

YOUR PRIVATE TRAVEL BRIEF

Your plans deserve a personal response.

Share your route, timing and preferences. A suitable proposal is reviewed individually; an enquiry is not a booking confirmation.

PERSONAL TRAVEL PLANNING

Private jet Dubai: airport choice and onward connections

Dubai World Central – Al Maktoum International (DWC) also serves general aviation. The suitable airport and handling point for your journey are established in the specific flight proposal. Coordinate the flight with the hotel, city appointments and onward travel. Longer routes call for a closer look at cabin preferences, luggage and any technical stops. The Sheikh Rashid Road contact address is not a confirmed flight terminal or an agreed collection point.

Official airport information ↗

What details help with personal charter planning?

LUXURY VOYAGE / AVIATION

Milano. A personal way to travel.

City photograph: Milano · Destination photography

Private jet charter for Milano: coordinate business visits, private stays and chauffeur journeys to the northern Italian lakes.

01 / PRIVATE AVIATION

The city and your actual destination

For Milano, the final address matters: office, hotel, private appointment or onward journey. Rather than assuming one airport, flight planning considers your ground itinerary. Access, availability and operating requirements determine the actual option.

02 / PRIVATE AVIATION

A day of business or a longer stay

Outward and return travel can be requested together for a business day. For several appointments, a list of time windows, addresses and contacts helps shape the itinerary. Changes are reviewed for their effect on flights and connections before confirmation.

03 / PRIVATE AVIATION

Milano and the northern Italian lakes

A private stay can be complemented by a chauffeur journey to Lake Como or an individual day itinerary. Destination, guests and luggage form part of the brief. Hotel, restaurant and other third-party services are included only when expressly agreed.

04 / PRIVATE AVIATION

Onward to Zurich or Dubai

Milano–Zurich and Milano–Dubai are ideas for individual charter enquiries. They are not fixed routes with guaranteed availability. Aircraft choice, flight routing and any technical stops are reviewed for the actual journey.

05 / PRIVATE AVIATION

Details for your Milano enquiry

Alongside flight dates, include your pick-up address, luggage and the purpose of your journey. A clear brief supports a more suitable cabin, flight and chauffeur choice without assuming unconfirmed availability.

YOUR PRIVATE TRAVEL BRIEF

Your plans deserve a personal response.

Share your route, timing and preferences. A suitable proposal is reviewed individually; an enquiry is not a booking confirmation.

PERSONAL TRAVEL PLANNING

Private jet Milano: coordinate Linate or Malpensa

Milano Prime has locations at Linate and Malpensa. The airport choice for your private flight needs to fit the route, actual aircraft and confirmed itinerary. Start with the address of the appointment or hotel rather than only naming Milano as the destination. Discuss onward travel to the lakes or another city alongside the flight brief. Luxury Voyage’s Italian contact address is in Rimini; it does not represent an owned office or terminal in Milano.

Official airport information ↗

What details help with personal charter planning?

06

Milano ↔ Dubai

Business & leisure · Categories are a guide. Aircraft, cabin, capacity, range and availability are confirmed for your specific journey.

PERSONAL TRAVEL PLANNING

Zurich, Dubai and Milano in one multi-leg charter journey

Consider all appointments together when planning several flight stages. For each leg, state departure, destination, date and any fixed arrival commitment. Include hotel changes and ground transfers. A considered itinerary looks at the return, length of stay and actual aircraft planning rather than comparing isolated sectors. Zurich, Dubai and Milano are starting points and destinations for individual enquiries; no scheduled route or daily aircraft availability is implied.

What details help with personal charter planning?

Include the route, date, guests, luggage and fixed arrival commitments. Discuss cabin preferences, a chauffeur or concierge directly with Luxury Voyage Aviation. An enquiry is not a booking confirmation.

Discuss your personal charter journey ↗

info@luxury-voyage.com

LUXURY VOYAGE / AVIATION

Charter a private jet. Travel well prepared.

Illustrative private aviation imagery · Illustrative imagery · no claim of an owned fleet or guaranteed availability.

A practical guide to your charter enquiry: aircraft choice, cabin comfort, cost factors, luggage, proposal and confirmation.

01 / PRIVATE AVIATION

1 · A complete travel brief

Record departure and destination, dates, preferred time windows and all guests. Add return travel or further stages, luggage and unusual items. Mention any fixed arrival commitment and whether alternative departure times are possible.

02 / PRIVATE AVIATION

2 · Aircraft and cabin

Selection starts with your route and requirements. Cabin space, seating layout, baggage arrangements and preferred rest or work areas then matter. Light, Midsize and Long Range categories provide guidance; the actual proposed aircraft and its equipment are decisive.

03 / PRIVATE AVIATION

3 · Understanding the total

A proposal may include positioning, airport charges and agreed additional services alongside the flight. Review the scope of the overall proposal. Ask about excluded items, conditions for changes and how long the offered option remains valid.

04 / PRIVATE AVIATION

4 · Catering and individual needs

Share dietary preferences and allergies early. Pets, children, mobility requirements and sports equipment must also be discussed with the operator. A wish list supports planning; the confirmed proposal defines the agreed service.

05 / PRIVATE AVIATION

5 · Documents and itinerary

Passenger information, entry documents and terminal arrival instructions are clarified for the specific journey. Sensitive documents should be sent only through an agreed secure channel. The public website is not a passport-upload facility.

06 / PRIVATE AVIATION

6 · Proposal and confirmation

Compare aircraft, operator, timing, included services, payment terms and conditions for changes or cancellation. Only the agreed booking confirmation makes the journey binding. A website enquiry does not reserve an aircraft or a price.

07 / PRIVATE AVIATION

7 · The connection on the ground

Chauffeur transfer, hotel pick-up and any helicopter connection follow the confirmed flight. A clear meeting point and reachable contact reduce uncertainty. A suitable alternative should be discussed for weather-dependent connections.

YOUR PRIVATE TRAVEL BRIEF

Your plans deserve a personal response.

Share your route, timing and preferences. A suitable proposal is reviewed individually; an enquiry is not a booking confirmation.

PERSONAL TRAVEL PLANNING

Booking a private jet: compare proposals clearly

Compare charter proposals against the same route, guests, luggage, date and time window. Then review the actual aircraft, named carrier and included services. Different positioning, airports or cabin requirements can change the scope. Establish how long an option remains valid and what happens if the journey changes. Sensitive passenger documents should be exchanged only through the agreed secure channel; the website is not a document-upload service.

What details help with personal charter planning?

Include the route, date, guests, luggage and fixed arrival commitments. Discuss cabin preferences, a chauffeur or concierge directly with Luxury Voyage Aviation. An enquiry is not a booking confirmation.

WINTER TRAVEL / THE BRIEF

Ski luggage on a charter flight: define the journey before choosing the jet.

A private winter journey needs more than a passenger count. List ski or snowboard bags and their length, large cases and extra equipment individually. On a multi-stop trip, include anything added along the way. Usable baggage capacity and loading are reviewed by the named operator for the aircraft actually proposed; a jet category alone is not a commitment.

Describe the final destination as carefully as the departure preference. For a journey from Zurich, consider the arrival airport, the final drive to the hotel and a possible alternative plan together. Weather, airport operations and permitted landing locations can affect arrangements. A helicopter connection is offered only after its own assessment and confirmation.

To start a focused charter enquiry, share the route, dates and time windows, passenger and luggage summary, and accommodation or final address. We can discuss the flight and the chauffeur connection you would like. An individual proposal identifies the licensed operating carrier and agreed scope; the corresponding confirmation establishes the binding travel plan.

Discuss your personal charter journey ↗

info@luxury-voyage.com

LUXURY VOYAGE / AVIATION

An opportunity. Clearly understood.

Illustrative private aviation imagery · Illustrative imagery · no claim of an owned fleet or guaranteed availability.

Understand empty-leg flights, when they may suit your plans and what to clarify before making an enquiry.

01 / PRIVATE AVIATION

What is an empty leg?

An empty leg is a flight segment arising from aircraft positioning in connection with another booking. The opportunity therefore depends on the original flight plan. Route, time window and aircraft are generally less flexible than on a charter arranged specifically for your journey.

02 / PRIVATE AVIATION

For flexible travel plans

An option may be of interest if you can adapt your date, departure or destination. For a fixed business commitment, discuss carefully whether dependence on the underlying itinerary suits your needs.

03 / PRIVATE AVIATION

Changes and return travel

If the underlying booking changes, an empty-leg opportunity may change or disappear. A suitable return flight is not automatically included. Ask about the actual terms and possible alternatives.

04 / PRIVATE AVIATION

Prices and available options

No live inventory, fixed discounts or guaranteed savings are displayed here. A reliable proposal requires a current review. Include your preferred route, dates, guest numbers and actual flexibility so suitable opportunities can be requested.

05 / PRIVATE AVIATION

What to compare

Consider the whole journey: travel to the departure point, agreed timing, included services, luggage and onward arrangements. The important question is whether the actual option fits your needs, rather than an eye-catching price.

YOUR PRIVATE TRAVEL BRIEF

Your plans deserve a personal response.

Share your route, timing and preferences. A suitable proposal is reviewed individually; an enquiry is not a booking confirmation.

PERSONAL TRAVEL PLANNING

Distinguish empty-leg flights from regular charter

An empty leg depends on another aircraft itinerary. Its route, date and timing may therefore be less suited to a fixed personal appointment. Before deciding, discuss possible adjustments and what happens if the original flight changes. Flexibility can help when reviewing an option, but does not establish a guaranteed discount or dependable daily availability. This website does not display a live, bookable empty-leg inventory.

What details help with personal charter planning?

Include the route, date, guests, luggage and fixed arrival commitments. Discuss cabin preferences, a chauffeur or concierge directly with Luxury Voyage Aviation. An enquiry is not a booking confirmation.

LUXURY VOYAGE / AVIATION

Your flight comes first. Personal care on the ground.

Illustrative private aviation imagery · Illustrative imagery · no claim of an owned fleet or guaranteed availability.

Zurich chauffeur service and ground transport complementing private jet travel: connect terminal, hotel, business appointments and private destinations.

01 / PRIVATE AVIATION

From private jet to your next address

Transfer planning starts with the confirmed arrival point. Chauffeur, pick-up location and contact person follow the actual itinerary. Let us know whether you are heading to a hotel, business appointment or private address. The flight remains the basis of planning.

02 / PRIVATE AVIATION

The right vehicle for your journey

A limousine, a spacious family vehicle or a group solution: guest numbers, luggage and comfort shape the choice. An S-Class or V-Class can be included as a preference. Model, equipment and availability are confirmed only in the actual proposal.

03 / PRIVATE AVIATION

A direct transfer or hourly chauffeur

A direct journey suits a fixed start and destination. Coordinated chauffeur availability can be requested for several appointments. Addresses, stops and waiting arrangements are discussed in advance. Additional journeys are not automatically included in a flight proposal.

04 / PRIVATE AVIATION

Families, luggage and individual needs

Include suitcases, pushchairs, sports equipment and other larger items. Child seats and accessibility requirements must be requested and confirmed in advance. For several vehicles, a clear guest allocation and reachable contact help coordinate the journey.

05 / PRIVATE AVIATION

Zurich and onward destinations

Hotel, city centre and Lake Zurich can be included, as can onward travel to another Swiss destination. Longer journeys require consideration of routing, breaks and the return. The actual itinerary takes account of traffic and the confirmed flight instructions.

06 / PRIVATE AVIATION

Coordinate transport with Luxury Voyage

Chauffeur journeys are arranged directly with your Aviation contact. Share flight details, pick-up address, destination, guest numbers and luggage. Joint planning creates a clear itinerary while flight and transport services remain clearly identified in the proposal.

YOUR PRIVATE TRAVEL BRIEF

Your plans deserve a personal response.

Share your route, timing and preferences. A suitable proposal is reviewed individually; an enquiry is not a booking confirmation.

PERSONAL TRAVEL PLANNING

Private jet transfer Zurich: terminal, hotel and luggage

Ground transport after a private flight starts at the confirmed meeting point, not an assumed terminal. Share the handling contact, hotel address and number of travellers. Include unusual luggage and further stops in the same enquiry. Chauffeur planning follows the agreed flight itinerary. If that changes, review the pick-up, meeting point and any waiting together. A photograph or vehicle category does not automatically confirm a particular model.

What details help with personal charter planning?

Include the route, date, guests, luggage and fixed arrival commitments. Discuss cabin preferences, a chauffeur or concierge directly with Luxury Voyage Aviation. An enquiry is not a booking confirmation.

LUXURY VOYAGE / AVIATION

Your private chauffeur. Your limousine. Your rhythm.

Illustrative modern Mercedes-Benz S-Class by an alpine lake · Illustrative imagery · no claim of an owned fleet or guaranteed availability.

Private chauffeur and limousine service in Zurich for private jet arrivals, business appointments, special occasions and individual day itineraries.

01 / PRIVATE AVIATION

A personal driver for your stay

A private chauffeur accompanies your journeys with an agreed vehicle and itinerary. From private terminal to hotel, between appointments or for a special evening, pick-up address, times and destinations are personally planned. Ground service complements your flight and can also be requested separately.

02 / PRIVATE AVIATION

Limousine service with considered comfort

A limousine suits solo travellers, couples and business guests seeking a calm journey and a considered arrival. Vehicle category and equipment are discussed for the assignment. A Mercedes-Benz S-Class can be requested as a preference; the actual available vehicle is confirmed in the proposal.

03 / PRIVATE AVIATION

Additional space for families and small teams

Several guests, additional suitcases or a pushchair may call for a more spacious chauffeur vehicle. A V-Class or a suitable group solution is requested according to guests and luggage. Include child-seat preferences and individual requirements early so the vehicle fits the journey.

04 / PRIVATE AVIATION

Hourly, for several appointments or a day

For a single transfer, the start, destination and pick-up time set the brief. An hourly arrangement considers your time window, planned appointments and waiting periods together. Scope, extra journeys and terms are agreed in the personal proposal; all-day availability is not assumed.

05 / PRIVATE AVIATION

Business, dining and private occasions

A meeting, restaurant visit, private celebration or Zurich tour can be coordinated with a driver. Preferred addresses and any return journey form part of the itinerary. Concierge requests can be reviewed alongside the transport; reservations and third-party services are separately confirmed.

06 / PRIVATE AVIATION

From jet to limousine

Pick-up after a private flight follows the confirmed terminal, meeting point and operating carrier’s instructions. Vehicle preference, luggage and final address are coordinated accordingly. Special access or direct aircraft-side collection is not promised without separate confirmation.

07 / PRIVATE AVIATION

Request your private chauffeur

Share the date, pick-up time, start and destination, guests, luggage and required duration. For a longer assignment, add an appointment list and preferred vehicle category. Enquiry, proposal and confirmation are discussed directly with your Aviation contact, keeping charter, chauffeur and concierge arrangements connected.

YOUR PRIVATE TRAVEL BRIEF

Your plans deserve a personal response.

Share your route, timing and preferences. A suitable proposal is reviewed individually; an enquiry is not a booking confirmation.

PERSONAL TRAVEL PLANNING

Private driver Zurich: one transfer or continued attendance?

One transfer needs clear collection and destination addresses and a pick-up time. A private driver for several appointments also needs the stop sequence, intended service hours and return journey. Mention large luggage and special preferences. Whether you request a limousine or more space, the actual confirmation is decisive. Discuss schedule changes directly with the coordinator; longer attendance is not automatically included.

What details help with personal charter planning?

Include the route, date, guests, luggage and fixed arrival commitments. Discuss cabin preferences, a chauffeur or concierge directly with Luxury Voyage Aviation. An enquiry is not a booking confirmation.

LUXURY VOYAGE / AVIATION

Experience Zurich. Personally arranged.

Illustrative private aviation imagery · Illustrative imagery · no claim of an owned fleet or guaranteed availability.

Zurich concierge service for private jet travellers: coordinate hotel and restaurant preferences, private tours and personal itineraries on request.

01 / PRIVATE AVIATION

A personal point of contact for your stay

Concierge service complements your private jet journey with the details on the ground. Arrival, hotel, appointments, experiences and return travel are considered together. A clear set of priorities helps turn many possibilities into a suitable stay.

02 / PRIVATE AVIATION

Hotel and restaurant preferences

Preferred location, room requests, a quiet evening or a particular dinner: share your ideas. Reservations can be requested and coordinated by agreement. Availability, included services, payment and cancellation terms are confirmed separately with the respective provider.

03 / PRIVATE AVIATION

Private tours of Zurich

The Old Town, Bahnhofstrasse and Lake Zurich offer different perspectives on the city. A private itinerary follows your available time and interests. Chauffeur journeys can be combined with walking sections. Guides, admissions and additional services are included only when expressly confirmed.

04 / PRIVATE AVIATION

Business visits, guests and occasions

For several guests, addresses, pick-ups and time windows can be coordinated in one itinerary. Events require clear meeting points and responsibilities. Tickets, permissions and exclusive access are not promised without individual confirmation.

05 / PRIVATE AVIATION

Individual wishes, thoughtfully considered

Dietary needs, flowers, a personal welcome or a particular schedule can be included in your enquiry. A detailed description makes it easier to review the possibilities. Not every service is available at short notice; only items confirmed in the individual proposal are agreed.

06 / PRIVATE AVIATION

Your flight sets the framework

An itinerary should fit arrival, time to rest and your return flight. Charter planning comes first; concierge and transport complement it. Fixed appointments, personal time and a considered allowance are recorded together, keeping the stay personal rather than unnecessarily crowded.

YOUR PRIVATE TRAVEL BRIEF

Your plans deserve a personal response.

Share your route, timing and preferences. A suitable proposal is reviewed individually; an enquiry is not a booking confirmation.

PERSONAL TRAVEL PLANNING

Zurich concierge around your private flight

Concierge coordination starts with your priorities and actual schedule. Include the hotel, appointments, restaurant preferences or a desired private tour. Each element is reviewed for the responsible provider and applicable terms. A discussed idea is not a confirmed reservation. Flight, driver and stay should work together without assuming additional services. This lets you decide on the scope of the journey through a clear individual proposal.

What details help with personal charter planning?

Include the route, date, guests, luggage and fixed arrival commitments. Discuss cabin preferences, a chauffeur or concierge directly with Luxury Voyage Aviation. An enquiry is not a booking confirmation.

LUXURY VOYAGE / AVIATION

From your first step to your arrival.

Illustrative aviation imagery · Illustrative imagery · no claim of an owned fleet or guaranteed availability.

A morning meeting in Milano and home that evening? A family holiday or a special occasion with time to yourselves? Tell us what you want your journey to make possible. Your personal charter brief starts there.

01

Chauffeur & transfer

From home or hotel to the confirmed terminal, then on to your destination: your personal driver and flight brief are considered together.

02

Private tours

City, lake or Alps: private excursions and individual day itineraries complement your stay.

03

Concierge coordination

Travel times, meeting points and special requests are brought together into a considered itinerary.

04

THE ART OF PRIVATE TRAVEL

A confidential moment. Time to talk. Space to disconnect. The right cabin reflects the way you want to travel. Catering, luggage, pets and special requests are discussed in advance.

PERSONAL TRAVEL PLANNING

Private tours and transfers within a flight itinerary

A private excursion after arrival needs to fit the available time and return flight. Share interests, guests, luggage and the intended return location. A direct connection, city visit and a longer stay are different planning requirements. Tickets, guiding and restaurant reservations are included only when expressly confirmed. The charter journey remains the starting point, with additional arrangements agreed according to their actual scope.

What details help with personal charter planning?

Include the route, date, guests, luggage and fixed arrival commitments. Discuss cabin preferences, a chauffeur or concierge directly with Luxury Voyage Aviation. An enquiry is not a booking confirmation.
